

AMBIENTE

PREMIUM DESIGN CANDLES

A Loving Atmosphere in Your Home Is the Foundation for Your Life.

Dalai Lama

In this spirit, we say thank you. Thank you for 10 years AMABIENTE.

We wish you a lot of inspiration and unforgettable moments
with our candles.

Yours

Regine Trenkle

CEO / CD

AMABIENTE candles are made from stearin (palm oil), individual collections such as the scented candles are made from colza or soy wax. We only use vegetable raw materials and no petroleum derivatives (such as paraffin).

All waxes are supplied by ecologically controlled and certified, sustainably grown and not genetically modified production, which corresponds to the RSPO standard. The entire production process is monitored and guaranteed by international conventions. All fair trade demands during the whole production process are ensured.

Stearin is characterized by resistance and hardness, that makes it possible to get impeccable and special shapes.

The crystal- or line-structure turns out during the casting and gives each candle a unique look.

The organic dyes are durable, colourfast, resistant to light and do not stain. The wicks are from pure cotton, according to Oeko-Tex Standard 100.

AMABIENTE candles are odor-free and safe for people suffering from allergies and asthma. The candles produce little soot and do rarely drip (small diameters are even drip- and smoke free). Wax remains are completely biodegradable and solvent-free at the disposal.

Long burning times and a bright luminous flame are other benefits of AMABIENTE's entire candle collection.

All products are handmade in Europe. The candles are manufactured in our production sites in Austria and the Czech Republic. The holders are made in Austria, Czech Republic, Germany, Italy and Switzerland.

Vision, concept and design arise in the headquarters of AMABIENTE in Basel, Switzerland.

CANDLE PASSION

more than burning flames
Leidenschaft die ewig brennt

Eine liebevolle Atmosphäre in deinem Heim ist das Fundament für dein Leben.

Dalai Lama

Ganz in diesem Sinne sagen wir Danke. Danke für 10 Jahre AMABIENTE.

Wir wünschen Ihnen viel Inspiration beim Durchblättern und unvergessliche Momente mit unseren Kerzen.

Ihre

Regine Trenkle

CEO / CD

AMABIENTE Objekt- und Stabkerzen werden aus Stearin (Palmöl) hergestellt, einzelne Kollektionen wie die Duftkerzen sind aus Raps- oder Sojawachs. Es kommen ausschliesslich vegetabile Rohstoffe und keine Wachse aus Erdölderivaten (Parafin) zum Einsatz.

Alle Wachse werden aus kontrolliertem, nachhaltigem und genfreiem Anbau bezogen, welcher dem RSPO-Standard entspricht. Der gesamte Herstellungsprozess wird durch internationale Konventionen überwacht und sichergestellt. Er erfüllt alle fair trade Anforderungen.

Stearin zeichnet sich durch Formbeständigkeit und Materialhärte aus, weshalb wir unsere Kerzen zu so perfekten, speziellen Formen verarbeiten können. Die Kristall- oder Linien-Struktur entsteht beim Giessen und gibt jeder Kerze ein unikates Aussehen.

Die organischen Farben sind langlebig, farbecht, lichtbeständig und färben nicht ab. Die Dochte sind aus reiner Baumwolle, gemäss Ökotex-Standard 100.

AMABIENTE Kerzen sind geruchsneutral und für Allergiker und Asthmatiker unbedenklich. Wachsreste sind vollständig lösungsmittelfrei und biologisch abbaubar.

Die lange Brenndauer, die hell leuchtende Flamme und der tropf-/russarme Abbrand (tropf-/russfrei bei kleinen Durchmessern) sind weitere Vorzüge der gesamten AMABIENTE Kerzenkollektion.

Sämtliche Produkte sind handgefertigt in Europa. Die Kerzen werden in unseren Produktionsstandorten Österreich und Tschechien hergestellt. Die Leuchter stammen aus Österreich, Tschechien, Deutschland, Italien und der Schweiz.

Vision, Konzeption und Design entstehen im Hauptsitz von AMABIENTE in Basel, Schweiz.

In the late 1980s craftsmen from Austria pioneered the creation of extraordinary candles made out of stearin (palm wax). Thus they laid the stone for the integration into a united company. This was the birth of AMABIENTE in 2003.

Since then AMABIENTE has been equipped under the leadership of Regine Trenkle and has developed into a unique candle brand that is unparalleled. With much dedication and passion our current production sites in Austria and the Czech Republic produce highest quality design candles in meticulous hand work crafted by skilled employees. The whole range is distributed through the headquarters in Switzerland.

AMABIENTE is committed to ensure fair trade and conditions as well as environmental sustainability of the wax origin by controlling the entire value chain from procurement, transport up to working and production conditions.

AMABIENTE attaches particular importance on the production process and the choice of raw materials. We strive continuously to achieve perfection in the workmanship of candle making. AMABIENTE's in-house design department not only crafts timeless candles, but also invents the best matching candle holders. This creates a unique fusion of candle and holder that complements any setting.

AMABIENTE gives your space and time a special touch and generates unforgettable sensual moments with the characteristic of a superior quality product.

Ende der 1980er Jahre leisten Kunsthandwerker in Österreich Pionierarbeit bei der Schaffung von aussergewöhnlichen Kerzenkreationen aus Stearin (Palmölfwachs). Damit legen diese Kerzenkreateure den Grundstein zur Zusammenführung in ein vereinigtes Unternehmen. Dies war die Geburtsstunde von AMABIENTE im Jahr 2003.

AMABIENTE wurde seither unter der Leitung von Regine Trenkle laufend weiterentwickelt und zu einer einzigartigen Kerzenmarke ausgebaut, die ihresgleichen sucht. Mit viel Passion und Engagement werden an unseren heutigen Produktionsstandorten Österreich und Tschechien in minuziöser Handarbeit durch qualifizierte Mitarbeiter designorientierte Objektkerzen in höchster Qualität hergestellt und durch den Hauptsitz in der Schweiz vertrieben.

AMABIENTE stellt während der gesamten Wertschöpfungskette von der Materialbeschaffung, dem Transport bis zur Verarbeitung faire Bedingungen sicher und engagiert sich für ökologische Nachhaltigkeit der Wachsprovenienz.

AMABIENTE legt besonderen Wert darauf, auserlesene Rohstoffe und beste Materialien zu verarbeiten und die Handwerkskunst des Kerzengiessens stetig zu perfektionieren. AMABIENTE kreiert in der eigenen Designabteilung nicht nur zeitlose Kerzen, sondern entwirft auch die optimal passenden Leuchter dazu. So entsteht eine unverwechselbare Symbiose aus Designständer und Objektkerze, die jedes Ambiente verschönert.

AMABIENTE verleiht Ihrem Raum und Ihrer Zeit eine besondere Note und schafft unvergesslich sinnliche Augenblicke mit der Besonderheit eines überdurchschnittlich hochwertigen Qualitätsproduktes.
